

liquid fry shortening

All-vegetable cooking oil for maximum crispiness

creamy liquid fry

An all-vegetable shortening that easily pours

Package Size: 16L sealed plastic jug enclosed in a corrugated cardboard box. Liquid Fry and Creamy Liquid Fry Shortening are also available in a 16L plastic pail.

Product Description: **Liquid Fry Shortening** is a newly formulated blend of soybean oils that will produce appetizing, excellent tasting fried foods whether deep fried or griddle fried. Liquid Fry Shortening can be purchased in a standard bottle-in-box (BNB) or a heavy-duty pail that can be repurposed for other uses in your kitchen. The antioxidants are a combination of a natural preservative, rosemary extract with ascorbic acid (vitamin C). An antifoam agent is also added for safety during deep-frying.

Creamy Liquid Fry has the same vegetable oil formulation as Liquid Fry Shortening but can be purchased as a creamy, pourable liquid. It has a traditional white colour similar to that of animal fat-based shortenings.

Quality Assurance: BBSI has in place quality assurance programs that strictly maintain the specifications and wholesomeness of their finished products. BBSI holds license 9HPV4T74 under the Safe Food for Canadians Act (SFCA) and Safe Foods for Canadians Regulations (SFCR) and has a HACCP system to comply with all government regulations and industry best practices ensuring the continued safety of our products. BBSI has obtained certification under an approved Global Food Safety Initiative (GFSI) Standard from the British Retail Consortium (BRC) and the Food Safety Modernization Act (FSMA) Module.

Regulatory Compliance: Kosher and Halal Certified.

Microbiology: Pure fats are not attacked by microbiological species, since there must be a nutrient-containing aqueous phase in which the organism can grow. The moisture content of this product is below 0.1%, and at this moisture level product will not support any microbial growth.

Handling and Storage: Care must be taken during storage and shipment to avoid damaging the flavor. BBSI recommends during shipping Liquid Fry Shortening is kept below 90°F (32°C) and above 40°F (5°C). During warehouse or kitchen storage, BBSI recommends Liquid Fry Shortening is kept between 65°F and 80°F (18°C-27°C). Packaged animal fats will absorb off-flavors if stored near food items with strong odors. Unsaturated fatty acids will oxidize if kept in a warm place over a long period of time.

Country of Origin: Canada and/or United States of America.

Shelf life: One year after packing date. The shelf life will be affected by storage conditions such as temperature, humidity and light. BBSI recommends Liquid Fry Shortening is stored at 65°F-80°F (18°C-27°C) and away from heat sources such as griddles and deep fryers.

Ingredients: Soybean oil, interesterified soybean oil with rosemary extract and ascorbic acid added as an antioxidant and dimethylpolysiloxane added as an antifoaming agent.

Physical/Chemical Analyses: Free Fatty Acid (FFA) = 0.05% max; Qualitative Moisture = Negative; Peroxide Value (PV) = 1.5 meq/kg max; Solid Fat Index = N/A; Lovibond Color Yellow/Red = 20/1.5; Melting Point = N/A; Iodine Value = 117-129;
